Body text before the equation explains the model. It has two sentences on two lines.

$$x = a + b \tag{1}$$

sum of parts

The equation above sums two terms. It is used below.

$$f\ g\ h\ k$$

The second equation has no number and only math letters.

Table 1. Synthetic table of values.

Name	Value
alpha	1,200
beta	3,400

The table lists two values. Both are synthetic.

The last page starts with a drop cap like IEEE papers. The first two lines sit beside the large letter and the next lines run under it from the left edge of the column. It is one paragraph.
